

ÓRIZZON 5 HEADLIGHT 8268

The Órizzon 5 is a modern and compact automotive headlight, featuring 5 independent functions (front position light, front turn signal, DRL, high beam, and low beam), allowing for unique modularity and freedom of choice between functions. Its contemporary, discreet, and elegant design, combined with excellent performance, makes it an innovative solution for those seeking sophistication and versatility in a lightweight product with just 125mm width.

- 5 independent functions
- Modular
- Compact and modern

SUGGESTED APPLICATIONS
