

NÉBULA FOG LIGHT 8266

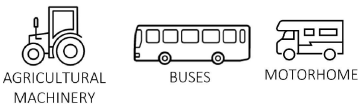

Illustrative image

Smaller than a credit card!
The Nébula fog light is the smallest headlight in its category. Delicate and refined, this light combines sophisticated design with high performance in an extremely compact and ultra-lightweight product. The Nébula offers 2 functions in a single unit: fog light and cornering light, providing increased lateral illumination and optimized visibility in curves, ensuring safety and better obstacle detection on the road.

- Fog light + cornering
- Ultra-compact and lightweight
- Integrated adjustment system

SUGGESTED APPLICATIONS
